PORTFOLIO

PROFILE SUMMARY

Aspiring Analyst with skills in technology strategy, digital solutions, and data analytics. Experienced in building user-focused projects using Python, HTML, CSS, and JavaScript, with strong problem-solving, analytical, and storytelling abilities. Interested in helping organizations transform business processes through technology, and customer-centric strategies.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript, React

Tools: Git, GitHub, AWS Console

Programming: Python, C

Cloud: AWS (EC2, S3, Lambda, RDS, IAM)

Concepts: Responsive Design, Debugging

PROJECTS

To-Do List & Progress Tracker | HTML, CSS, JavaScript (2025)

- Developed a responsive web app to manage daily tasks and track progress across multiple activities.
- Designed an intuitive sidebar for updating sub-levels and milestones, ensuring clear visualization of personal goals.

DeepFake Voice Detection | Flask, HTML, CSS, Python (May 2025)

- Developed an interactive web app for detecting AI-generated voices with 87% accuracy using CNN.
- Designed a responsive front-end with HTML CSS and JAVASCRIPT, improving user accessibility for dataset analysis.

Library Management System | Python, HTML, CSS (May 2024)

- Built a full-stack library app with book categorization by genre.
- Designed a clean, responsive UI for efficient browsing; achieved 85% accuracy in automated sorting.

EDUCATION

B.Tech in Computer Engineering – RAIT, Navi Mumbai (2022 – Present, 2026) | CGPA: 7.00/10
